► Intership from Ministry

In the second half of August, gentlemen from the Ministry of Industry and Trade, Mgr. Michal Bureš and Mgr. Tomáš Hamberger were on the intership in our company.

During this three-day intership, they tried working with the Kardex storage system in our production or, for example, soldering.

► **Workshop Digitalisation in practice**

At the beginning of September, the Roadshow: Digitization of MPS, focused on Industry 4.0, took place in Prague in cooperation with the Ministry of Industry and Trade. The workshop was broadcasted via Facebook and Youtube channel. Peter Debnár presented on behalf of our company, presenting digitalisation according to the principles of Industry 4.0 in BDS.
