

► New product video

We have a new product video for the LMK 809 submersible probe. Watch it on our website or social networks, where you will find a link.

We will be happy if you let us know how you liked the video! This feedback is very important to us as we prepare to shoot more such videos.

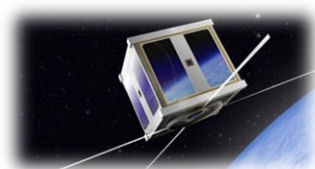

► BDSAT website

See also the page dedicated to our BDSAT nanosatellite! On the page you will find a countdown to the start, but also interesting informations, news and photos.

► Help for Zoo Lešná

In the first half of April, a collection to help the Lešná Zoo in Zlín took place in our company's dining room.

CZK 7,000 was collected from employees. The company matched the amount to CZK 10,000.

The event ended in 15. 4. 2021.
