► Mobile classroom put into operation

On Friday, November 8, an unique Mobile Classroom project was presented to the public at the Skanzen Hotel. The classroom is part of the Technology Center for Industry 4.0 and the project of the companies **VISC**, **BD SENSORS s.r.o.** and **Ray Service a.s.**

Take a look at some photos from this day:

You can find more photos in the article on our Facebook, LinkedIn or on the website.

Once the classroom is fully occupied, it will be available for inspection for employees in front of our company.
