

## Ariane Industry Days

The representatives of BD SENSORS, director of our Space Division Ing. Marek Šimčák Ph.D. and deputy CEO Ing. Peter Debnár MEng., participated at the **Ariane Industry Days - industrial conference** held in Paris on 7. - 8. 4. 2022. This participation was **based on the personal invitation** from the director of Ariane Group, Europe's largest space rocket engine manufacturer. **Only selected companies and institutions** actively involved in the development and implementation of technological components for the European Space Programme in the field of "Space Transportation" were invited to this special seminar. Important topics and challenges that this industry will face in the decades ahead have been discussed. There were also plenty of interesting lectures and presentations, and last but not least, there were discussed the future opportunities in space transport and exploration as part of the "**Space Vision 2040**" discussion. BD SENSORS representatives had the opportunity to debate some new possibilities of our company's involvement in the Ariane programme as part of B2B discussions with top Ariane Group leaders. BD SENSORS was the only Czech company that participated in this extraordinary event in a full-time manner.

## Ampér fair is here!

One fair is over, the other is waiting for us in a few weeks. Ampér 2022 will take place from 17 to 20 May 2022. It is an **international trade fair for electrical engineering, energy, automation, communications, lighting and security**, in which our company regularly participates.
